

If you allow media companies to own all the media outlets you are not only hurting the public's opportunity to hear diverse opinions on world news and events, you are building a foundation for censorship. PLEASE PLEASE PLEASE don't allow this to happen. Media needs to be regulated. It needs to be owned by a large, diverse number of companies. As it is, we only hear a small view on network news; do you want that to be only one view?
I DO NOT. Please hold the FCC to its mandate and oppose the rule change.

Sincerely,
Teri Smith
